

Abbey Home Farm Accommodation Catering Costs 2021

(please note due to Covid the cafe is closed until further notice but take away hot drinks are available if you bring your own mug and there are fresh pies and pasties at lunch time)

Abbey Home Farm is, above all, about food. We raise all our own meat, make cheese, yoghurt, cream and butter from our small herd of Shorthorn dairy cows and grow over 100 varieties of vegetables and soft fruit. Everything we do here is about reconnecting people with their food and in doing so we aim to build a strong partnership between the community and our farm. We have a fab relaxed, award winning cafe inspired mainly by the vegetable garden that surrounds us. A visit to Abbey Home Farm isn't complete without sampling the results of our work in the fields.

Most stag and hen party / group gathering organisers have said its great to have everything pre-arranged when organising for so many people, especially as the budget is fixed so everyone knows what is being spent. Then the only thing you need to worry about when you arrive on the Friday night is lighting the fire...and Will is usually around if there was a problem with that! However if you prefer to be more adhoc, we have a shop FULL of lovely local food, including all our own meat, dairy and veg plus 200 other products (including groceries, alcohol and ice cream, catering for ALL dietary requirements!) for you to buy as needed.

The cost for **full catering** (6 meals and a snack box) is **£99.00 per meat eater ; £95 per vegetarian.**

Alternatively you can mix and match from the options below. You can discuss any catering options with Hilary when you book, including special dietary requests.
